### HSE Research with Parents

The HSE is doing research to understand how parents of children aged 4-9 years communicate with them about their bodies, relationships and sexuality. Parents are invited to take part in discussion groups to tell what they think children aged 4-9 years old should know about this ; how they talk to their children about these issues etc. The researchers would like to hear the views of parents active in the Catholic faith on these questions. A research discussion group will be held on Wednesday June 11<sup>th</sup> at 11am in the Clondalkin Village Parish Pastoral Centre for Catholic parents of children aged 4-9. If you have a child aged 4-9 years please come along to have your views included in this study. Parents are asked to call the researcher, Catherine Conlon, (School of Social Work & Social Policy, Trinity College Dublin) on 086-8502954

### The Lighter Side !

Mary, the church gossip, and self appointed monitor of the church's morals, kept sticking her nose into other people's business. Several members did not approve of her extra curricular activities, but feared her enough to maintain their silence.

She made a mistake, however, when she accused George, a new member, of being an alcoholic after she saw his old blue pickup parked in front of the town's only bar one afternoon. She emphatically told George, and several others, that everyone seeing it there would know exactly what he was doing.

George, a man of few words, stared at her for a few moments and just turned and walked away.

He didn't explain, defend or deny! He said nothing! Later that evening, George quietly parked his blue pickup in front of Mary's house .... walked home and left it there....all night!
